Cosgrove

■ Innovation & Disruption

Where Real Estate meets Technology

The brilliance of technology meets the strength of architecture in these smart estates, located at the capital of Africa's powerhouse.

Inspired by the timelessness of design and the innovation of smart home automation, Cosgrove creates homes that shape the future and secure the present.

Message from the CEO.

Welcome to Cosgrove. We are a future-ready company that is disrupting Africa's real estate space.

For two decades, I have worked in the real estate and financial sectors and I have seen them evolve and grow. Presently, everything is changing, and I see it to be a generational change. I have seen game-changing developments such as the Internet of Things, the increased importance of automation, data analytics, and energy management, coupled with a stronger reliance on clean sources of energy, all reshape the way the real estate sector works, and Cosgrove is insistent on remaining at the forefront.

By integrating technology in our residential real estate, we are seeing Africa compete on a level playing field with the rest of the world in innovation and real estate development. Cosgrove is the pioneer in this market, and we have the biggest tech department in the homegrown Nigerian real estate market in terms of automation.

We have seen the Nigerian population increase year after year and are set on ensuring that the housing deficit that has arisen from this growth, is addressed. By putting our strength to the service of the country, Cosgrove is optimistic about the future of Nigeria's real estate industry.

We aim to set the standard and create future-ready and sustainable real estate assets.

The future is here, and it is our pleasure to welcome you to it.

“

At Cosgrove, we are building much more than just homes. We're building trust. We believe trust is the foundation of every successful relationship. Building mutual trust with our partners is at the core of everything we do.

”

About Cosgrove.

Cosgrove is a real estate development and general construction company that develops sustainable smart homes in Africa. We are focused on pioneering the integration of technology and automation into luxury, residential and commercial real estate using sustainable methods. Led by a core team of highly reputable real estate professionals, developers and investors, we are at the forefront of disruption in the real estate industry in Africa.

The companies that own the future are those that look forward, anticipating market needs, trends and technology; using them to create the best products and services. Cosgrove is committed to building homes that are sustainably ready for tomorrow's technology — from simple automation and energy efficiency to full-on smart home capabilities — yet are also aesthetically pleasing and practical in today's world.

The Cosgrove brand is a guarantee of integrity, professionalism and reliability- equal to the best obtainable anywhere in the world.

Our Locations

With a passion for superiority in all our projects, the Cosgrove team is dedicated to delivering value by bringing you beautiful homes with carefully thought-out and functional designs to suit your lifestyle.

We pride ourselves on carefully selected prime locations which make any Cosgrove smart estate an investor's dream offering high returns on investments for both residents and investors.

We offer a wide range of contemporary housing types through all our estates to suit a wide range of customers; from those who want to reside in a modern and sustainable environment at a strategic location within the city of Abuja to those who want to make high yielding property investments within the city.
